

# Major State Highway Projects Active for 2011 Construction Season

*(not all projects are listed)*

- 1

ALSTEAD

NH Route 123 construction consisting of bridge, two box culverts, a retaining wall, drainage, roadway and guardrail work. Traffic control will consist of a signed detour route, traffic diversion at the bridge site, signalized alternating one-way traffic and alternating one-way traffic during work hours. Back to normal traffic patterns during non-work hours. Completion - Spring 2013.
- 2

ALTON

Reconfiguration and reconstruction of the NH Route 11 approaches to the Alton Traffic Circle. Each Rte 11 approach to be re-aligned and converted to yield on entry into the circle. Also aerial and under-ground utility work with sidewalk construction along Rte 11 west of the circle. Traffic control consists of two lane shifts and flagger controlled alternating one-way traffic. Competion - Fall 2011.
- 3

BEDFORD (Bedford - Manchester - Londonderry)

Construction of the Airport Access Road from the F.E. Everett Turnpike to the Manchester Boston Regional Airport. Temporary lane closures can be expected at night on the F.E.E.Turnpike with alternating one-way traffic on Rte 3 during off-peak hours only. Completion - October 2011.
- 4

BETHLEHEM - CARROLL

Five miles of US Route 302 pavement rehabilitation from the bridge over the Ammonoosuc River in Bethlehem to the US Route 3 intersection in Carroll. Alternation one-way traffic to be expected during work hours. Expected start - May 2011: Anticipated Completion - September 2011.
- 5

BOSCAWEN

A new roundabout to be constructed at the intersection of US Route 4 and Harris Hill Road with temporary detours during the construction period. Completion - September 2011.
- 6

BOW

Bridge reconstruction at the intersection of Interstates 89 and 93. Traffic shifts will be utilized during construction. Completion - July 2014.
- 7

DIXVILLE - MILSFIELD

3.1 miles of NH Route 26 pavement rehabilitation beginning 2.1 miles north of the Dixville / Milsfield town line and extending south for 3.3 miles (1.2 miles in Milsfield). Alternating one-way traffic can be expected during work hours. Expected start - May 2011 Anticipated Completion - September 2011.
- 8

DOVER

NH Route 9 bridge replacement over the railroad will continue this summer using a temporary bridge detour until early summer 2011. Traffic will be maintained using a combination of two-lane shifts and off peak, flagger controlled, alternating one-way traffic. Completion - late 2011.
- 9

ENFIELD

Main Street bridge replacement at the NH Route 4-A intersection. Roadway construction on Main St and Rte 4-A with sidewalk installation and guardrail replacement. Alternating one-way traffic during work hours on Rte 4-A with Main St closed with a signed detour. Completion - Summer 2012.
- 10

ERROL

NH Route 16 realignment and reconstruction beginning 1.7 miles north of the Cambridge / Errol townline, continuing north for 2800 feet (0.5 miles). Alternating one-way traffic to be expected during work hours. Expected start - May 2011, Anticipated Completion - June 2012.
- 11

HAMPSTEAD - ATKINSON

NH Route 111, Island Pond Road and West Road intersection improvements, including turn lanes for Rte 111 and traffic signal instalation. All daytime work will be done using lane shifts with lane closures during off peak hours. Final paving will be done at night. Completion - September 2011.
- 12

HARTS LOCATION

US Route 302 in Crawford Notch roadway embankment stabilization including Rip-Rap along the Saco River with paving to follow. Traffic flow will be maintained with temporary lanes shifts. Expected start - May 2011, Anticipated Completion - July 2011.
- 13

HILLSBOROUGH

NH Route 9 / US Route 202 pavement rehabilitation and guardrail work from just west of the Hen-niker/Hillsborough townline for 5 miles to just west of NH Rte 31 North. Alternating one-way traffic will be used during work hours. Completion - Spring 2011.
- 14

LACONIA - WEIRS BEACH

New roundabout construction at the intersection of US Route 3 and NH Route 11-B at Weirs Beach. Temporary lane shifts will be used during the construction period. Completion - sometime 2012.
- 15

LEBANON (ARRA)

Interstate 89 at Exit 20. Both Northbound and Southbound bridges over NH Route 12A will be replaced. There will be 3400 feet of road improvements on I-89 from the bridge over the Connecticut River southward. Also Route 12A will be widened to 7 lanes. Lane closures mostly at night and speed reductions to be expected during construction. Completion Fall 2012.
- 16

LEE - DURHAM

Bridge and pavement rehabilitation on five bridges on US Route 4 and one on Bagdad Road over Route 4. Work begins just east of the Lee Traffic Circle continuing 6 miles to the Durham wastewater

- 17

LINCOLN - FRANCONIA

5.8 miles of the Interstate 93 Parkway in Franconia Notch rehabilitation from the Whitehouse Bridge in Lincoln to the Lafayette Bridge in Franconia. Work includes drainage repair, guardrail replacement, pavement resurfacing and bridge deck repair at the Exit 34B bridge. Alternating one-way traffic to be expected both day and night till mid-June 2011 with two-way traffic from mid-June till the end of October 2011. Completion - September 2012.

18

LONDONDERRY (Salem - Manchester)

Interstate 93 road and bridge construction in the Exit 5 area, starting at Stonehenge Road and continuing north on I-93 for 2 miles. Work includes replacement of 4 Red Listed bridges including the 2 over NH Rte 28 and 2 over the Recreational Trail. There will be "Rolling Roadblocks" during the day time for ledge blasting and some nighttime lane closures. There will be two-way traffic on Rte 28 between 6 am and 7 pm with alternating one-way traffic between 7 pm and 6 am. Completion - June 2014.

19

MANCHESTER

Construction of 2 roundabouts at the new Airport Access Road and the existing airport road. Lane closures to be expected. Completion - June 2012

20

MANCHESTER

Interstate 93 pavement rehabilitation and bridge repairs from Exit 7 to Exit 10 using lane closures. Completion - June 2012.

21

MANCHESTER - HOOKSETT

Interstate 93 Merrimack River bridge deck replacement and NH Rte 3A bridge rehabilitation both North and Southbound barrels. Also 1.1 miles of pavement rehab beginning 0.5 miles south of the Merrimack River bridge in Manchester to 0.7 miles north of the bridge in Hooksett. Also Exit 10 ramp work with new pavement. Completion - June 2013.

22

MANCHESTER - HOOKSETT

Interstate 93 median barrier installation with lane closures during work hours while maintaining two 12 foot travel lanes. Completion - June 2012.

23

MERRIMACK

F.E. Everett Turnpike's (Merrill's Marauders Bridge) rehabilitation for both the north and southbound bridges over the Souhegan River. Work includes widening and improving all approaches. Temporary lane closures will be used during work hours. Completion - June 2011.

24

MILFORD - AMHERST

NH Route 101 pavement and bridge rehabilitation, drainage improvements and guardrail work to be done using phased construction involving lane shifts. Night time only lane closures, with speed reductions to be expected during the construction period. Completion - Fall 2012.

25

MILTON

NH Route 125 bridge rehabilitation of the bridge over the NH Northcoast Corporation railroad in Milton. Traffic will be signal controlled alternating one-way, during phased construction. Completion - December 2011.

26

NEW CASTLE - PORTSMOUTH

Two NH Route 1B bridges over the Piscataqua estuary to be rehabilitated including structural steel, concrete pier repairs and later bridge painting. There will be permanent signalized lane closures for the duration of the project. Anticipated Completion - November 2011.

27

NORTH HAMPTON - GREENLAND - MILTON

Interstate 95 pavement resurfacing from mile marker 6.6 to mile marker 9.0 both northbound and southbound barrels and on NH Route 16 in Milton from mile marker 27 to mile marker 28. Anticipated Completion - August 2011.

28

PLAISTOW - KINGSTON

NH Route 125 reconstruction. From 0.4 miles south of the Rte 125 intersection with NH Rte 121A, continue north on Rte 125 for 1.1 miles. Reconstruct 1000 feet of Danville Road, 400 feet of Jesse George Road and 1500 feet of Rte 121A. Work will be completed using lane shifts and alternating one-way traffic mostly during daytime hours. Anticipated Completion - June 2013.

29

PLYMOUTH

NH Routes 25 / 3A bridge deck replacement over the Baker River. Two-way traffic maintained throughout construction. Completion - November 2011.

30

PORTSMOUTH

Replacement of bridge sign structures, overhead sign structures and ground-mounted signs on Interstate 95 between the Ocean Road Bridge over I-95 in Greenland, north to the I-95 / Spaulding Turnpike split in Portsmouth. Work with lane closures to be done at night only. Shoulder closures for any day work. Anticipated Completion - October 2011.

31

ROCHESTER

The Spaulding Turnpike will have continued construction from the Rochester Toll Booth to Exit 16. Also work to be done on Routes 125, 202, 202A and 11. Each of these roads will have work on-going with many changing traffic configurations. The Turnpike will have one lane in each direction north of Exit 12 for the 2011 construction season. Speed reductions and lane changes to be expected. Completion some time in 2013.

32

ROLLINSFORD - SOUTH BERWICK

US Route 4 pavement and bridge rehabilitation from Dover to S. Berwick Me. The Salmon Falls River bridge work will have two lanes most of the time, with only short periods of alternating one-way traffic. The pavement work will be done mostly at night during two, one week periods requiring flagger controlled, alternating one-way traffic. Completion - End of 2011.

33

SALEM (Salem - Manchester)

Interstate 93 construction from 0.3 miles north of the Ma / NH state line to 0.6 miles south of Exit 2. Work involves the I-93 Exit 1 interchange reconstruction, replacement of the NB and SB bridges over NH Route 38 (Lowell Road), I-93 box culvert extensions over Porcupine Brook and 3 retaining walls constructed near Route 38 (Lowell Road). Lane closures only possible during night work. Completion fall 2012.

34

SALEM (Salem - Manchester)

Brookdale Road Bridge replacement over I-93 with full box reconstruction of both approaches. Also I-93 median work. Alternating one-way traffic will be used on the bridge with temporary signals in the 2011 season. Lane closures are possible only during night work and traffic will be shut down at night for no more than a 15 minute period during removal of the old steel and erection of the new steel. Press releases and changeable message signs will be used to inform the traveling public. Completion - June 2012.

35

THORNTON

Bridge deck replacement of the Cross Road Bridge over the Pemigewasset River. Alternating one-way traffic will be maintained with temporary traffic signals. Anticipated Completion - August 2012.

36

WINCHESTER

NH Route 119 bridge over the Ashuelot River deck replacement utilizing signalized alternating one-way traffic. Completion - Fall 2011.

37

WINDHAM (Salem - Manchester)

I-93 Northbound from the Salem townline to NH Route 111 corridor widening. All existing lanes will be maintainedbut could have temporary nighttime lane closures for main line work. Rolling roadblocks can be expected during ledge blasting. Anticipated Completion - Spring 2012.

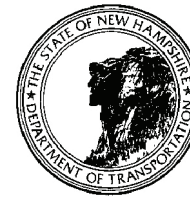

38

WOODSTOCK

NH Route 175 bridge work consisting of rehabilitation to three bridges over The Pemigewasset River. Alternating one-way traffic will be maintained with temporary traffic signals. Completion - September 2011.

A detailed map of New Hampshire showing its major highways, towns, and geographical features. The map is oriented with North at the top, indicated by a north arrow. Major highways are shown as thick lines, with route numbers in white boxes. Towns are labeled in all caps. Project locations are marked with numbered green squares. The numbers correspond to the project list on the left: 1 (Alstead), 2 (Alton), 3 (Bedford - Manchester - Londonderry), 4 (Bethlehem - Carroll), 5 (Boscawen), 6 (Bow), 7 (Dixville - Milsfield), 8 (Dover), 9 (Enfield), 10 (Errol), 11 (Hampstead - Atkinson), 12 (Harts Location), 13 (Hillsborough), 14 (Laconia - Weirs Beach), 15 (Lebanon (ARRA)), 16 (Lee - Durham), 17 (Lincoln - Franconia), 18 (Londonderry (Salem - Manchester)), 19 (Manchester), 20 (Manchester), 21 (Manchester - Hooksett), 22 (Manchester - Hooksett), 23 (Merrimack), 24 (Milford - Amherst), 25 (Milton), 26 (New Castle - Portsmouth), 27 (North Hampton - Greenland - Milton), 28 (Plaistow - Kingston), 29 (Plymouth), 30 (Portsmouth), 31 (Rochester), 32 (Rollinsford - South Berwick), 33 (Salem (Salem - Manchester)), 34 (Salem (Salem - Manchester)), 35 (Thornton), 36 (Winchester), 37 (Windham (Salem - Manchester)), and 38 (Woodstock). The map also shows the border with Canada to the north and the Atlantic Ocean to the east.
